Here are my comments on the scenarios. I hope they can still be added to our feedback to Alteristic.

Subject: Training and Focus Group Results for Review from Alteristic-Respond by Dec. 24th
Importance: High

All,

Alterisitic would like feedback on the examples which they have proposed for training as well as any concerns that we may have regarding their final focus group report. Here is their request:

"I have attached two PDFs to this email for your review. The first provides tailored examples and language that we plan on using in the final Green Dot curriculum for EPA. To be clear, this PDF is not the curriculum itself, but will give you a sense of the kinds of language and examples that we will use during the training. **Please take a look and send us any feedback you have.**

The second PDF is the final report from the focus groups that we conducted with EPA R8 employees in early October. We typically distribute focus group reports like this one to those who participated as a way of honoring their words and

thanking them for their participation. However, I didn't want to send this out to participants without your approval. Once you have reviewed and approved it, I am happy to distributed to participants. Alternatively, I am also happy to allow you and the members of the Task Force to distribute it on Alteristic's behalf. Let us know what works best for you."

I would be happy to compile comments. Please get any comments that you may have to me by noon on Dec. 24th.

Thanks,

Josh Fowler
